

Summer-School 2023 in Magdeburg

Physical Education in different countries: curricula comparison, health and digital possibilities at schools

The Summer School in Magdeburg will work on important content in Physical Education in the week from the 19th to the 23rd of June. The student groups from Poland, Belgium, Spain and Germany will research in the areas of “Health at School” (Health Programmes and Health Literacy), “Digital Physical Education” and the “Comparison of School and University Curricula”. We are looking forward to the results and invite you as teachers, students or just interested persons to the Final Session at the **22nd of June from 4pm to 6pm at the Senatssaal** of the Otto-von-Guericke University Magdeburg.
